

# Explanation of used labels within TurboWin's GitLab

Every issue (== feature or bug request in Gitlab terminology) in TurboWin's GitLab has one or more of the following labels.  
(<https://gitlab.com/KNMI-OSS/turbowin/turbowin>)

---

Feature is discussed in PB, put on the worklist of 4.2 and is being worked on.

Remark: the PB-request 4.2 is a planning item, it will not guarantee that it is done in time.

PB-2020 discussed PB-request 4.2 Doing

---

Feature discussed in PB, but did not ended up on a specific implementation planning

PB-2020 discussed

---

Investigation needed to make the feature ready for PB decision or implementable

PB-2020 discussed Investigation needed

---

Regular maintenance like security and bug fixes, put on the worklist of 4.2 and is completed.

Maintenance M-update 4.2 done

---

Questions from the community, that require small amount of time.

support

---

Feature requests or large questions from the community.  
In the next PB it can be decided to put this on a PB-request 4.x
